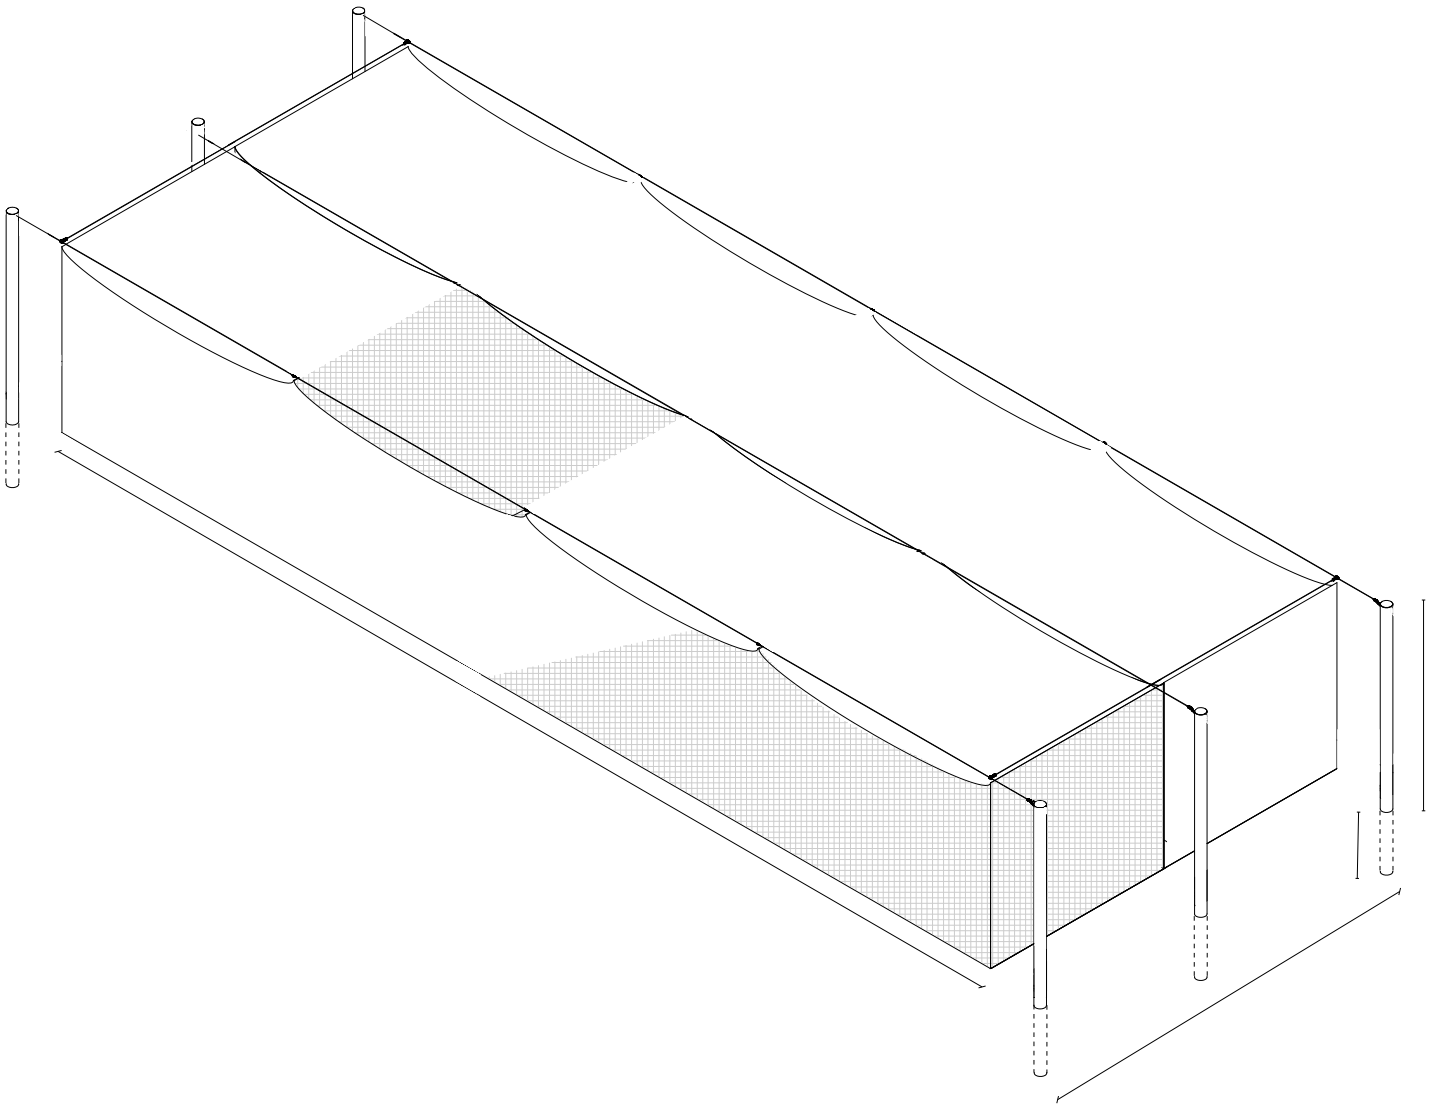
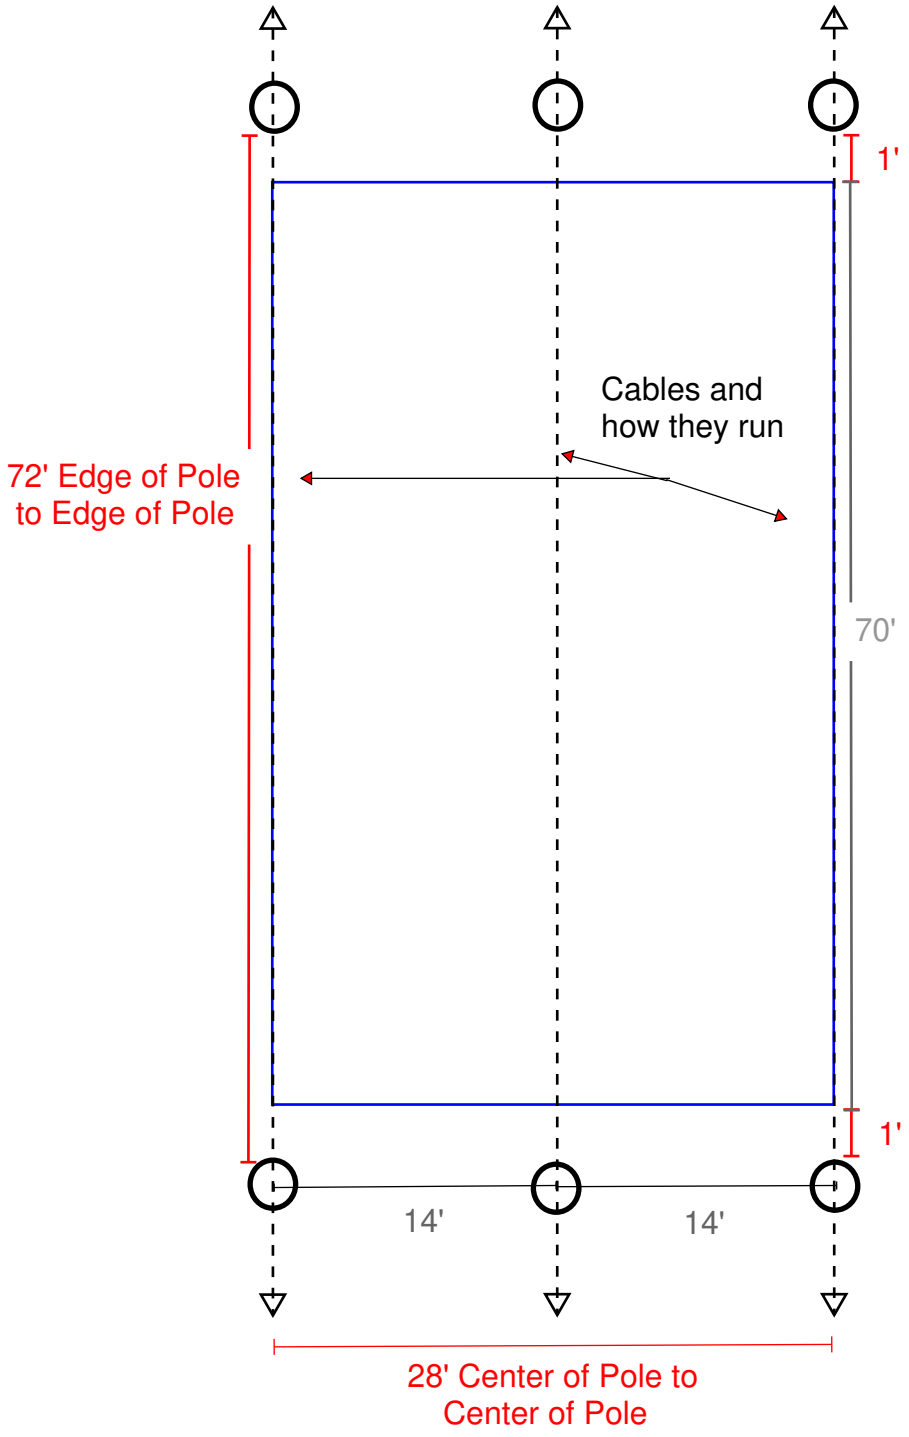
Install Instructions for a Double Batting Cage

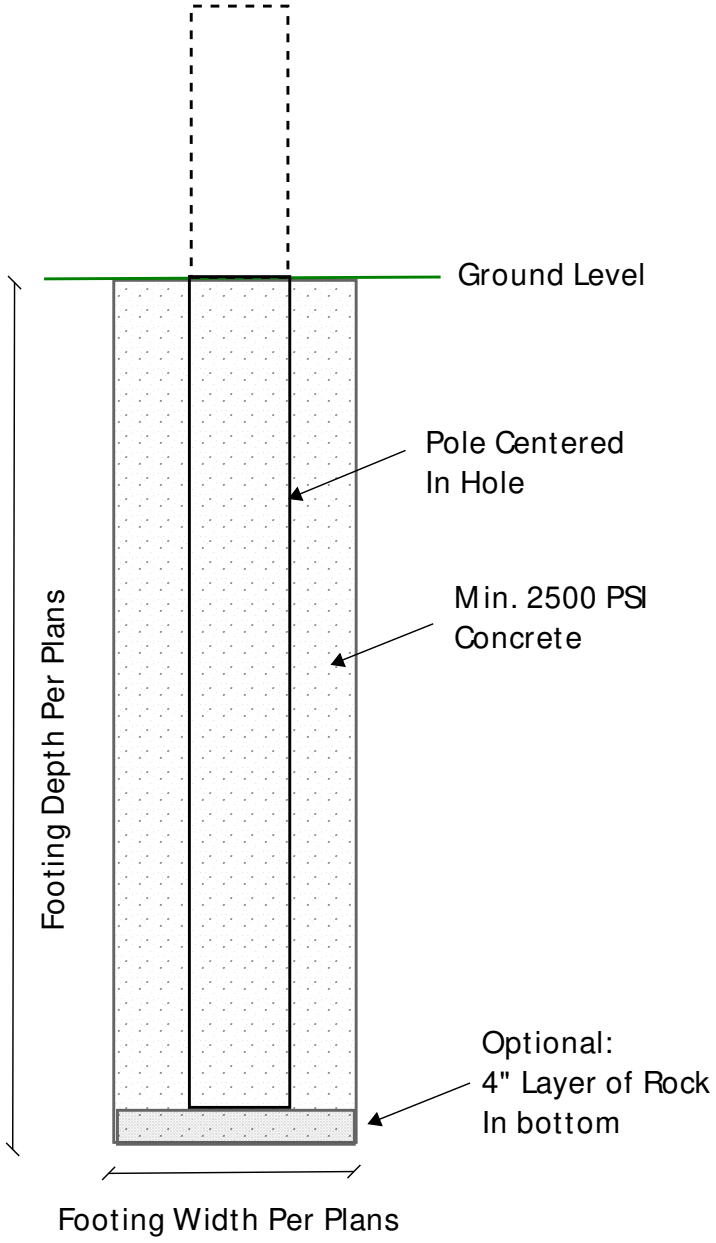


Pole Layout



Sample Overhead Pole Layout is based on a
28' Wide x 70' Long Double Batting Cage
Poles set Minimum 1' from Edge of Net

Setting Poles



You can use 2 x 4 Wedges to hold Pole in place while pouring Concrete

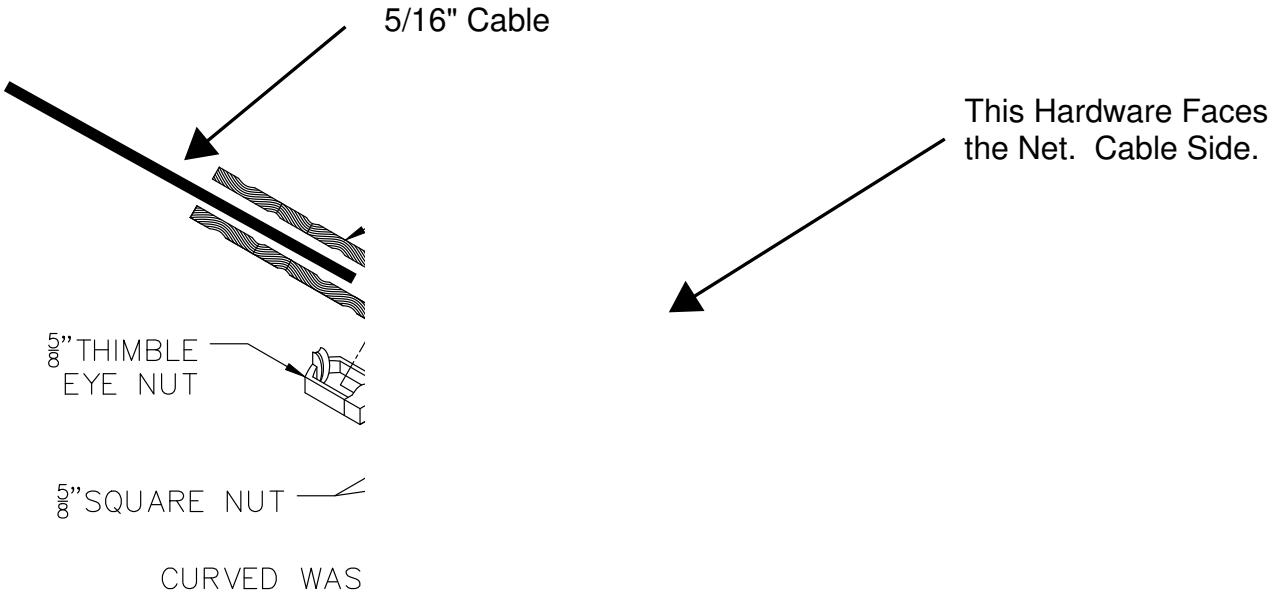
Running Cables



Notes:

1. Put Preformed Guy Grip thru Thimble Eye before attaching it to the cable
2. Preformed Guy Grip winds around end of cable (cable may need to be cut)
3. Leave the hardware on the cable side loose.
4. Use the nuts on the backside pulling the treaded rod and tightening the tension on the cable.
5. Once Cable is tight, tighten hardware on cable side

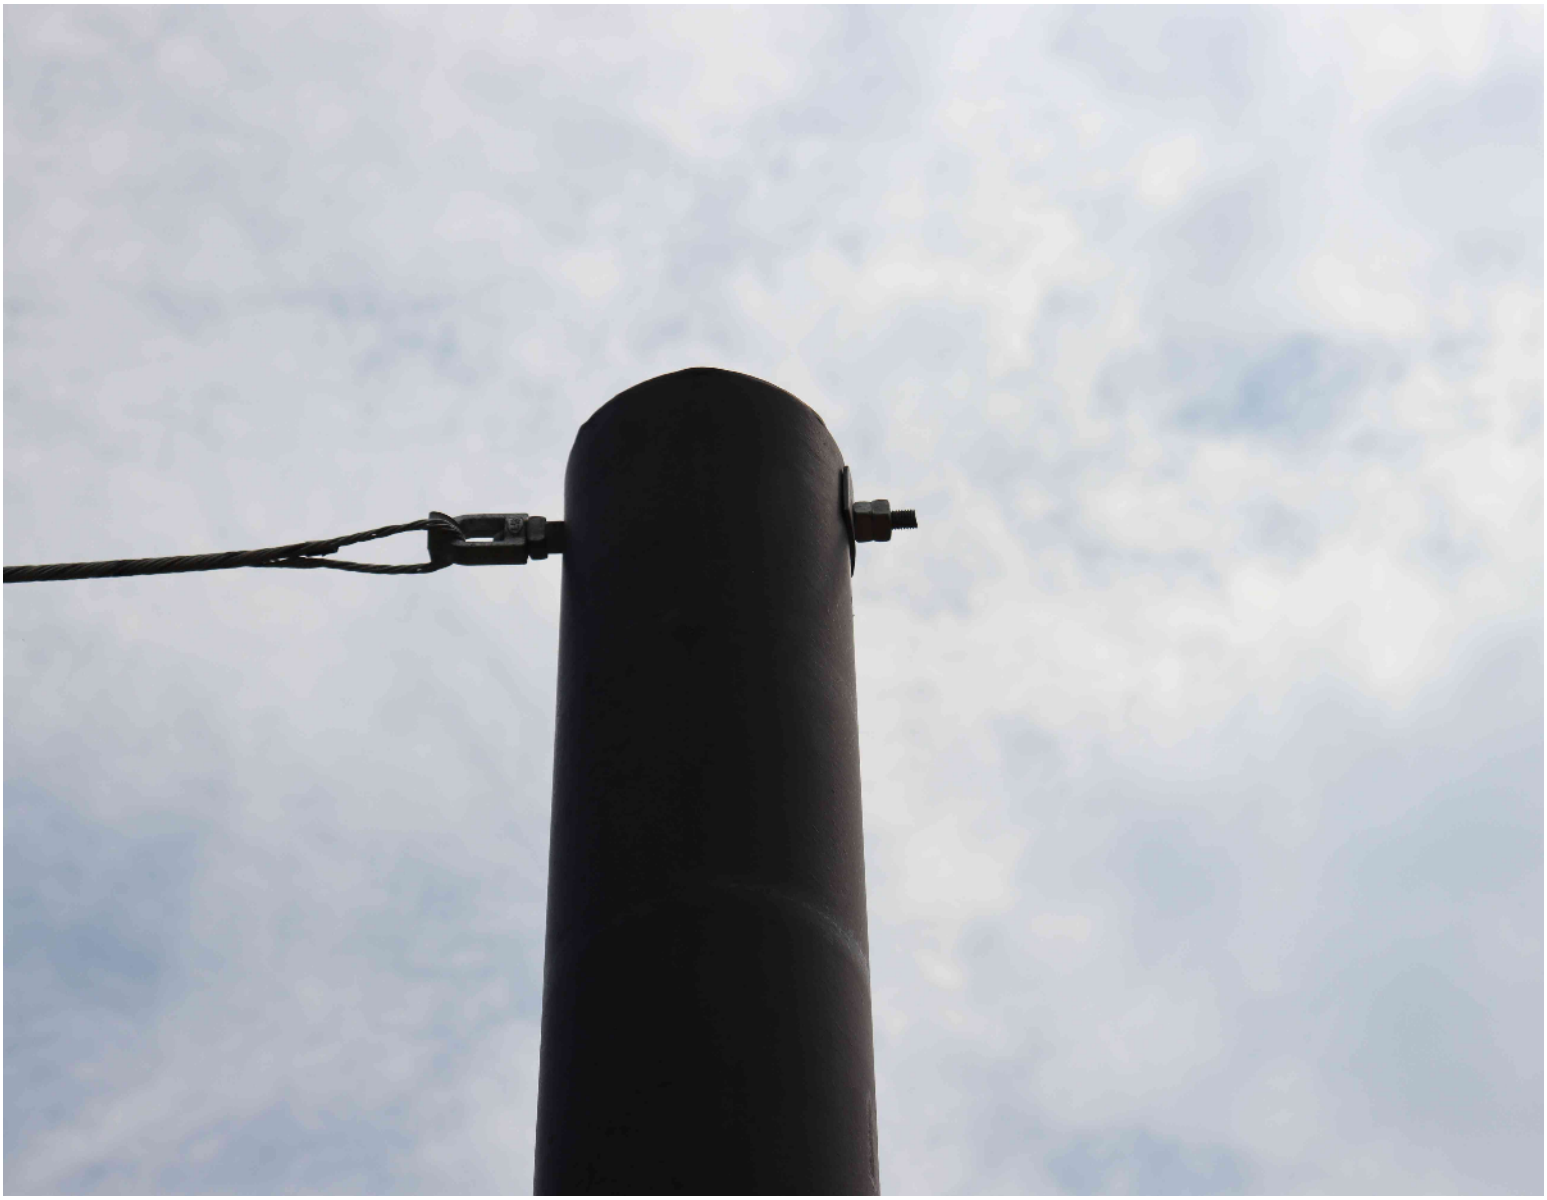
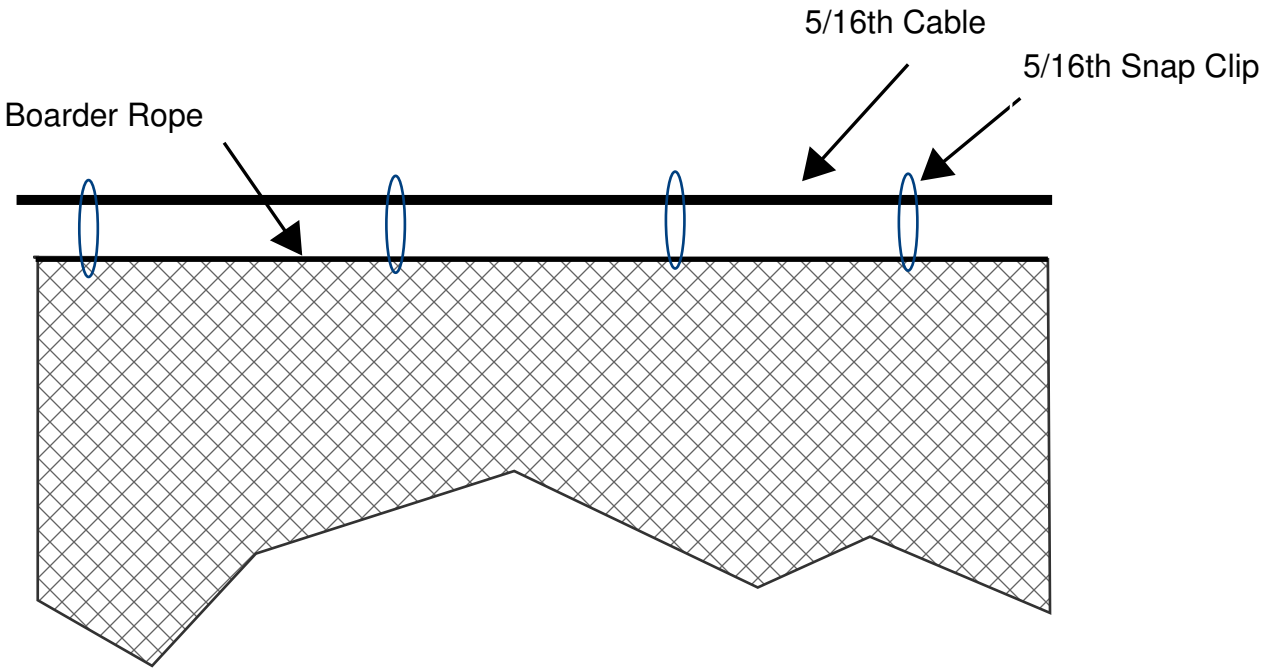
*Photo Example



Hanging Cage



Notes:

1. Use 5/16" Galvanized Snap Clips 2' On Center and at Corners
2. Make sure Snap Clip is only around boarder rope and not net material

Optional Install Step

If Cement slab under batting cages you can put cable at the bottom and attach the net to hold bottom down.

1. **Drill and Epoxy Eye bolts 3' on Center around perimeter of net**
2. **Run 1/4" Galvanized cable and connect ends together using 1/4" Cable Clamps. Make sure epoxy is set up.**
3. **Use 9GA Steel Hog Rings and hog ring Boarder rope to Galvanized Cable.**
